

MAGNUM Standard Control Thermostat

In some situations, a digital control is less necessary, and a simple on/off control is preferred. Especially in industrial applications or if continuous heating is required. For this purpose MAGNUM has developed the Standard Control: a simple on/off thermostat with temperature control that excels in simplicity and ease of use.

Technical details

- Voltage 230 Volt - 50/60 Hz
- Max. load 16A / 230 V
- Temperature range +5 / +40°C
- Housing IP21
- Color Polar white (RAL 9010)
- Certification CE
- On/off thermostat with temperature control
- Includes floor sensor
- Built-in room sensor and floor limit sensor
- Multi-frame adapter system for: Gira, Jung, Elko, Merten, Busch Jager etc.

Installation method

Suitable for electric heating systems.

Package content

- Thermostat
- Installation instructions
- Floor sensor

Warranty

2 year guarantee on the electrical operation and floor sensor.

Specifications

Type	On/off thermostat
Suitable for	Electrical systems
Controls	Physical buttons
Sensors	Room and floor sensor (12K)
Voltage	230V – 50/60Hz
Maximum load	16A / 230V
Temperature range	+5 / +40°C
Housing	IP21

Functions

WiFi	X
App	X
Voice assistant	X
Programmable	X
Intelligence	X
Wooden floor	X
Open window	X
Slow start	X
